

# Foundation Academy Admissions Checklist

## 1 APPLY ONLINE

Go to **FoundationAcademy.net/APPLY** and click the link to our online application system. You will set up an account, log in, create a new application (one per student) and then edit the application packet to complete each page of the requested information. There is a place to upload images of requested documents. **The deadline to submit an application is May 4, 2023.**

## 2 PRELIMINARY REVIEW

The application will be subject to a preliminary review to examine the initial application documents and information against minimum criteria before proceeding to the next step. If this criteria is not met, a decline letter will be sent and the application closed. If met, the admissions office will email with the next steps. In addition to the preliminary criteria, the entrance assessment, student and parent interviews, and space availability in the class will determine a final admission decision. Please note: **An application is not a guarantee of admission**

## 3 PARENT INTERVIEW\*

Parents will be contacted to schedule a parent interview. This interview is an opportunity for philosophical compatibility discussions and expectations of a Foundation Academy education experience.

## 4 ENTRANCE ASSESSMENT\*

The admissions office will email a link to schedule the student's entrance assessment. For students entering grades 7-12, a student interview will also be conducted at that time.

## 5 RECEIVE AN ADMISSION DECISION

Offers of admission are based on class availability and all the information gathered in the application process which illustrate potential success in our classroom and our curriculum. This decision is prayerfully discerned by our Admissions Committee. Availability is determined after returning families have paid deposits and confirmed reenrollment for the upcoming school year. Once classes are full, accepted students will be placed in a wait pool and notified if space becomes available.

**Early Decision:** Offers of admission begin on **January 24, 2023** for those who meet the early decision criteria and complete the application process by **December 8, 2022**.

**Standard Admissions:** Offers of admission begin on **February 8, 2023** and continue through May 12, 2023 (as space allows).

## 6 ENROLLMENT

If an offer of enrollment is made, please follow the instructions in the acceptance email to complete enrollment. This includes setting up a tuition payment plan in our FACTS tuition management system.

*\* These steps may happen at the same time or in a different order on occasion*
